5 min 29 min 34 min 1/10 7 6 12

400g of milk
200g of water
3 leeks
2 potatoes
2 tablespoons of heavy cream
Salt
Pepper

**400g of milk
**

Discover a delicious leek soup prepared with your TM31, TM5, or TM6 :

Â»

Cut the leeks into rounds.

Â»

Put the oil in the Thermomix bowl, then add the leek rounds and set for 7 minutes at 70°C, speed 2, in reverse function.

Â»

Peel the potatoes, cut them into cubes, then put them in the Thermomix bowl.

Â»

Add the milk, water, salt, pepper, and program for 22 minutes at 100°C at speed 2 (Do not put the measuring cup on the Thermomix bowl).

Â»

When it beeps, add the heavy cream and close the bowl with the measuring cup.

Â»

Blend for 45 seconds at speed 8.

Adjust the seasoning if needed and enjoy a delicious Thermomix leek soup. Yum ;)
