2 min 0 min 2 min 1/10 2 3 15

60g of water
15 clementines

60g of water
<span itemprop="

Â»

Peel and remove the seeds from the clementines.

Â»

Place them in the Thermomix bowl and add the water.

Â»

Close the Thermomix with the measuring cup. Blend for 25 seconds at speed 7.

Enjoy this nice homemade clementine juice cold. Yum ;)
